Our Thinking

How is the market up?
After the worst five-week crash ever, global stockmarkets have recovered all of their losses in just five months, with the MSCI World Index setting a new all-time high in late August. As the world continues to struggle with the pandemic, how is the market up?

There are just three sources of equity returns: fundamental growth, changes in valuations, and dividends. By splitting out each one individually, we can see what is driving markets. For fundamental growth, we can look at changes in expected earnings, and for valuations, we can look at the change in the price-earnings multiple for the index. To “look through” the extraordinary conditions of 2020, we will focus on earnings estimates for 2021.

This gives us the breakdown below. Dividends have chipped in 1.2% towards returns. Earnings expectations have collapsed by 15.5%, but this has been more than offset by rising valuations, leaving the market’s price-earnings multiple 23.2% higher than at the start of the year. After the recovery, the market now trades at 19 times estimated next-year earnings. This is an unusually rich level, and one that has not been surpassed since the tech bubble burst in 2001.

That explains how markets are up. Despite falling earnings expectations, markets are up because valuations have become much more expensive. But why markets are up is a different question.

One explanation is that not all companies are suffering. To quote Microsoft’s CEO, “we have seen two years’ worth of digital transformation in two months.” Two years’ worth in two months might also be an apt description of recent stock returns for software firms. The other explanation is that central banks have flooded the market with money, pushing down bond yields. If bonds offer lower returns, that makes equities look better in comparison, and should lead to higher stock prices. At the start of the year, 10-year US Treasury bonds yielded 1.9% and the MSCI World Index offered an earnings yield (earnings divided by price) of 6.4%, for a spread of 4.5% over bond yields. As we’ve seen, stocks are now more expensive, offering an earnings yield of just 5.2%. But Treasury yields have also fallen, to 0.7%. The difference (4.5%) is essentially unchanged since the start of the year, suggesting that lower bond yields deserve at least partial credit (or blame) for higher equity valuations.

But an explanation of what has happened is not a guide for what will happen. The unusual conditions of 2020 are unlikely to repeat, and today’s high starting valuations do not augur well for future long-term returns—at least, not for headline stock indices.

The good news is that those headline indices do a crude job of representing the opportunities available to bottom-up stockpickers. As the chart below shows, the biggest 50 companies in the US have repeatedly set new record highs, pulling up the return of the capitalisation-weighted MSCI World Index. But if we look at the average stock globally on an equal-weighted basis, we see that the average stock remains stuck in a bear market that started all the way back in early 2018. That excites us, because it suggests that there are plenty of companies out there where valuations may be much more attractive. Such opportunities represent the bulk of the Orbis Funds.

In fact, the Orbis Global Equity Strategy holds only six of the biggest 50 American companies, and while those giant firms represent 35% of world stockmarkets, they account for just 14% of the Strategy. The other 86% is in several dozen companies picked from the forgotten “rest”. In aggregate, our companies have similar or better fundamentals than the wider market, but trade at a steep discount. Being so different from the market isn’t always comfortable, but with market valuations where they are today, we wouldn’t have it any other way.

How is the market up?

| Source: Bloomberg, Orbis. Total returns include reinvested dividends (net of WHT). *Change in consensus estimates for 2021 earnings. **Change in the price-earnings ratio using est 2021 earnings. ***Impact of reinvested dividends on the index total return. |

Orbis Global Equity Fund

Shared Investor Refundable Reserve Fee Share Class (A) (“Shared Investor RRF Class (A)”)  

The Fund is designed to be exposed to all of the risks and rewards of selected global equities. It aims to earn higher returns than world stockmarkets, without greater risk of loss. The performance fee benchmark (“Benchmark”) of the Class is the MSCI World Index, including income, after withholding taxes (“MSCI World Index”). Currency exposure is managed separately to equity exposure.

For an initial period of time,* the Shared Investor RRF Class (A) is charging the fee of the Investor Share Class, reduced by 0.3% per annum,† with reference to the FTSE World Index, including income, before withholding taxes (“FTSE World Index”). Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. This temporary measure will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A). The FTSE World Index is being reported in the relevant sections below during this period.

Information for the period before the inception of the Shared Investor RRF Class (A) on 14 May 2020 (date indicated by dashed line above) relates to the Investor Share Class.

Fact Sheet at 31 August 2020

1 Fund data and Fees & Expenses for the period before 14 May 2020 relate to the Investor Share Class.  

2 Active share is temporally calculated in reference to the FTSE World Index.  

3 Full management fee consists of 1.5% per annum ± up to 1%, based on 3 year rolling outperformance/(underperformance) vs the FTSE World Index. Beginning 14 May 2020, for its application to the Shared Investor RRF Class (A), this fee is reduced by 0.3% per annum.  

4 The Shared Investor RRF Class (A) will continue to charge the fee of the Investor Share Class, reduced by 0.3% per annum, with reference to the FTSE World Index until the earlier of the first dealing day (a) on or after 14 May 2023, or (b) on which the average management fee charged by the Investor Share Class equals or exceeds 1.5% per annum of the Investor Share Class’ net assets for the period ending on that dealing day and beginning on the later of (i) 12 months prior to that dealing day, or (ii) 14 May 2020. Please refer to the Fund’s prospectus for more details.  

5 This 0.3% per annum reduction is provided because investors in the Shared Investor RRF Class (A) are subject to an additional administrative fee, as they separately agree with Allan Gray Proprietary Limited (or one of its affiliates) from time to time.

6 The average management fee charged by the Investor Share Class is 0.84% per annum.

Fund Objective and Benchmark

The Fund is actively managed and seeks to remain virtually fully invested in and exposed to global stockmarkets. It invests in equities considered to offer superior fundamental value. These equities are selected using extensive proprietary investment research. Orbis devotes a substantial proportion of its business efforts to detailed “bottom up” investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity’s fundamental value. The Investment Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss. The Fund may, to the extent permitted by its investment restrictions, also periodically hold cash and cash equivalents when the Investment Manager believes this to be consistent with the Fund’s investment objective.

Exchange rate fluctuations significantly influence global investment returns. For this reason, part of Orbis’ research effort is devoted to forecasting currency trends. Taking into account these expected trends, Orbis actively reviews the Fund’s currency exposure. In doing so, Orbis places particular focus on managing the Fund’s exposure to those currencies considered less likely to hold their long-term value. The Fund’s currency deployment therefore frequently differs significantly from the geographic deployment of its selected equities.

The Fund does not seek to mirror the Fund Benchmark but may instead deviate meaningfully from it in pursuit of superior long-term capital appreciation.

The net returns of the Shared Investor RRF Class (A) from its inception on 14 May 2020, with reference to the FTSE World Index. Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. This temporary measure will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A). The fee of the Investor Share Class that is currently being charged to the Shared Investor RRF Class (A) is calculated as follows:

The fee rate is calculated weekly by comparing the Class’ performance over three years against the FTSE World Index. For each percentage point of three year performance above or below that benchmark’s performance, 0.04 percentage points are added to or subtracted from 1.5%, subject to the following limits:

- **Maximum fee:** 2.5% per annum
- **Minimum fee:** 0.5% per annum

This fee is then reduced by 0.3% per annum. This 0.3% per annum reduction is provided because investors in the Shared Investor RRF Class (A) are subject to an additional administrative fee, as they separately agree with Allan Gray Proprietary Limited (or one of its affiliates) from time to time.

The Shared Investor RRF Class (A) will continue to charge the fee of the Investor Share Class, reduced by 0.3% per annum, with reference to the FTSE World Index until the earlier of the first dealing day (a) on or after 14 May 2023, or (b) on which the average management fee charged by the Investor Share Class equals or exceeds 1.5% per annum of the Investor Share Class’ net assets for the period ending on that dealing day and beginning on the later of (i) 12 months prior to that dealing day, or (ii) 14 May 2020. After this point, the Class’ management fee will instead be charged as follows:

- **Base Fee:** Calculated and accrued weekly at a rate of 0.8% per annum of the Class’ net asset value. Investors separately pay an administrative fee directly to Allan Gray Proprietary Limited or one of its affiliates. The Investment Manager or one of its affiliates is entitled to receive a separate fee from Allan Gray Proprietary Limited or one of its affiliates in connection with this administrative fee, related to services the Investment Manager and its affiliates provide to Allan Gray Proprietary Limited or its affiliates.

  - **Refundable Performance Fee:** When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and an additional 0.3% per annum, which is deemed to be representative of the aforementioned administrative fee) beats the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the outperformance is paid into a reserve and reinvested into the Fund. If the value of the reserve is positive on any dealing day, the Investment Manager is entitled to a performance fee in an amount capped at the lesser of an annualised rate of (a) one-third of the reserve’s net asset value and (b) 2.5% of the net asset value of the Shared Investor RRF Class (A). Fees paid from the reserve to the Investment Manager are not available to be refunded as described below.

When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and the aforementioned additional 0.3% per annum) trails the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the underperformance is refunded from the reserve to the Shared Investor RRF Class (A). If at any time sufficient value does not exist in the reserve to provide the refund, a reserve recovery mark is set, and subsequent underperformance is tracked. Such relative losses must be recovered before any outperformance results in any payment to the reserve.

Please review the Fund’s prospectus for additional detail and for a description of the management fee borne by the Fund’s other share classes.

Fact Sheet at 31 August 2020
Fees, Expenses and Total Expense Ratio (TER)

In addition to the fees payable to its Investment Manager, the Fund bears operating costs, including the costs of maintaining its stock exchange listing, Bermuda government fees, legal and auditing fees, reporting expenses, the cost of preparing its Prospectus and communication costs. Finally, the Fund incurs costs when buying or selling underlying investments. Operating costs (excluding the Investment Manager’s fee, the cost of buying and selling assets, interest and brokerage charges and certain taxes) attributable to the Fund’s Shared Investor RRF Class (A) are currently capped at 0.15% per annum of the net asset value of that class.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Investment Manager may cause the Fund to levy a fee of 0.40% of the net asset value of the Fund’s shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the Class over a 12 month period, excluding trading costs. Since Fund and Class returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

Risk/Reward Profile

- The Fund is designed for investors who have made the “asset allocation” decision to invest a predetermined amount in global equities.
- Investments in the Fund may suffer capital loss.
- Investors should understand that the Investment Manager generally assesses an equity investment’s attractiveness using a three-to-five year time horizon.

• for the Shared Investor RRF Share Class(es), Standard Share Class(es), and Investor Share Class(es), from the Orbis website at www.orbis.com.

Legal Notices

Returns are net of fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a $10,000 investment (dump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. The Investment Manager provides no guarantee with respect to capital or the Fund’s returns. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors’ performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case of transactions representing more than 5% of the Fund’s net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

The discussion topics for the commentaries were selected, and the commentaries were finalised and approved, by Orbis Investment Management Limited, the Fund’s Investment Manager. Information in this Report is based on sources believed to be accurate and reliable and provided “as is” and in good faith. The Orbis Group does not make any representation or warranty as to accuracy, reliability, timeliness or completeness of the information in this Report. The Orbis Group disclaims all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise) in connection with the information in this Report.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund’s Prospectus, provided that a new investor in the Orbis Funds must open an investment account in Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.

The latest average fund indices provided by Morningstar are for 20 August 2020. To allow comparison of returns to a common date we have extended the average equity and multi-asset class fund indices to reflect the subsequent movement of the applicable benchmark indices. Average fund returns are not shown for periods of a month or less as high price volatility and late fund reporting regularly cause them to be significantly restated by Morningstar.
Orbis SICAV
Japan Equity (Yen) Fund

Shared Investor Refundable Reserve Fee Share Class (A) ("Shared Investor RRF Class (A)"

The Fund is designed to be exposed to all of the risks and rewards of selected Japanese equities and seeks higher returns than the Japanese stockmarket, without greater risk of loss. This Share Class is predominantly exposed to the Japanese yen. Its performance fee benchmark ("Benchmark") is the Tokyo Stock Price Index, including income, net of withholding taxes ("TOPIX (net)").

Growth of ¥10,000 investment, net of fees, dividends reinvested

The Shared Investor RRF Class (A) incepted on 14 May 2020 (date indicated by dashed line above). Information for the period before the inception of the Shared Investor RRF Class (A) relates to the Investor Share Class and its relevant benchmark, the Tokyo Stock Price Index, including income, gross of withholding taxes ("TOPIX (gross)").

Returns¹ (%)
Orbis SICAV Japan Equity (Yen) Fund
Shared Investor Refundable Reserve Fee Share Class (A) ("Shared Investor RRF Class (A)")

This Fact Sheet is a Minimum Disclosure Document and a monthly General Investor Report as required by the South African Financial Sector Conduct Authority.

Fund Objective and Benchmark
The Yen Classes of the Fund seek higher returns in yen than the Japanese stockmarket, without greater risk of loss. A benchmark is used by the Fund for two purposes: performance comparison (the "Fund Benchmark") and performance fee calculation (the "Performance Fee Benchmark"). The Fund Benchmark is the Tokyo Stock Price Index, including income, gross of withholding taxes ("TOPIX (gross)"). The Performance Fee Benchmark of the Shared Investor RRF Class (A) is the Tokyo Stock Price Index, including income, net of withholding taxes (TOPIX (net)”).

The Fund does not seek to mirror the TOPIX (gross)/(net) and may deviate meaningfully from them in pursuit of superior long-term capital appreciation.

How We Aim to Achieve the Fund’s Objective/Adherence to Objective
The Fund is actively managed and is designed to be exposed to all the risks and rewards of selected Japanese equities. The Fund identifies as Japanese equities those equities of companies which are domiciled in Japan, whose securities trade on a Japanese stockmarket or whose business is primarily located in or linked to Japan. These equities are selected using extensive proprietary investment research undertaken by the Investment Manager and its investment advisors. Orbis devotes a substantial proportion of its business efforts to detailed “bottom up” investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity’s fundamental value. The Investment Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss. In addition, the Fund may, to the extent permitted by its investment restrictions, also periodically hold cash and cash equivalents when the Investment Manager believes this to be consistent with the Fund’s investment objective.

All share classes invest in a portfolio of Japanese equities selected by the Investment Manager. The currency exposure of the Shared Investor RRF Class (A) remains as fully exposed to the yen as practicable.

The net returns of the Shared Investor RRF Class (A) from its inception on 14 May 2020, stitched with the net returns of the Investor Share Class from the Fund’s inception to 14 May 2020, have outperformed the stitched Performance Fee Benchmarks of the respective classes. The Fund will experience periods of underperformance in pursuit of its long-term objective.

Risk/Reward Profile
• The Fund is aimed at investors who are seeking a portfolio the objective of which is to invest in, and be exposed to, Japanese equities.
• Investments in the Fund may suffer capital loss.
• Investors should understand that the Investment Manager generally assesses an equity investment’s attractiveness using a three-to-five year time horizon.

Management Fee
As is described in more detail in the Fund’s Prospectus, the Fund’s various share classes bear different management fees. The fees are designed to align the Manager’s and Investment Manager’s interests with those of investors in the Fund.

The Shared Investor RRF Class (A)’s management fee is charged as follows:
• **Base Fee:** Calculated and accrued weekly at a rate of 0.8% per annum of the Class’ net asset value. Investors separately pay an administrative fee directly to Allan Gray Proprietary Limited or one of its affiliates. The Investment Manager or one of its affiliates is entitled to receive a separate fee from Allan Gray Proprietary Limited or one of its affiliates in connection with this administrative fee, related to services the Investment Manager and its affiliates provide to Allan Gray Proprietary Limited or its affiliates.

• **Refundable Performance Fee:** When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and an additional 0.3% per annum, which is deemed to be representative of the aforementioned administrative fee) beats the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the outperformance is paid into a reserve and reinvested into the Fund. If the value of the reserve is positive on any dealing day, the Investment Manager is entitled to a performance fee in an amount capped at the lesser of an annualised rate of (a) one-third of the reserve’s net asset value and (b) 2.5% of the net asset value of the Shared Investor RRF Class (A). Fees paid from the reserve to the Investment Manager are not available to be refunded as described below.

When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and the aforementioned additional 0.3% per annum) trails the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the underperformance is refunded from the reserve to the Shared Investor RRF Class (A). If at any time sufficient value does not exist in the reserve to provide the refund, a reserve recovery mark is set, and subsequent underperformance is tracked. Such relative losses must be recovered before any outperformance results in any payment to the reserve.

Please review the Fund’s prospectus for additional detail and for a description of the management fee borne by the Fund’s other share classes.
Fees, Expenses and Total Expense Ratio (TER)

The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager, Investment Manager and additional service providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling assets. However, the Manager and the Investment Manager have agreed that in the current calendar year, except for specified exclusions, operating expenses attributable to the Fund’s Shared Investor RRF Class (A) will be capped at 0.20%. Please refer to the Fund’s Prospectus for a description of the fee cap applicable to its other share classes. Each cap will be automatically extended for further successive one year periods unless terminated by the Manager or the Investment Manager at least three months prior to the end of the then current term. The operating expenses that are capped are all expenses, excluding the Manager’s and Investment Managers’ fees described above under “Management Fee,” the cost of buying and selling assets, interest and brokerage charges.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Manager may cause the Fund to levy a fee of 0.25% of the net asset value of the Fund shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund and Class returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

Past performance is not a reliable indicator of future results. Orbis Fund share prices fluctuate and are not guaranteed. Returns may decrease or increase as a result of currency fluctuations. When making an investment in the Funds, an investor’s capital is at risk.
Orbis SICAV Japan Equity Fund

Additional Information

South African residents should contact Allan Gray Unit Trust Management (RF) Proprietary Limited at 0860 000 654 (toll free from within South Africa) or offshore_direct@allangray.co.za to receive, free of charge, additional information about a proposed investment (including Prospectus, application forms, annual reports and a schedule of fees, charges and maximum commissions). The Investment Manager can be contacted at +1 441 296 3000 or client@orbis.com. The Fund's Depositary is Citibank Europe plc, Luxembourg Branch, 31 Z.A. Bourmicht, L-8070 Bertrange, Luxembourg. All information provided herein is subject to the more detailed information provided in the Fund's Prospectus.

Share Price and Transaction Cut Off Times

Share prices are calculated for the (i) Investor Share Class(es), (ii) Shared Investor Refundable Reserve Fee Share Class(es), (iii) Shared Investor Refundable Reserve Fee Share Class(es) (A), (iv) Standard Share Class(es) and (v) Standard Share Class(es) (A) on a net asset value basis by share class, normally as of 5:30 pm (Bermuda time), (a) each Thursday (or, if a Thursday is not a business day, the preceding business day), (b) on the last business day of each month and/or (c) any other days in addition to (or substitution for) any of the days described in (a) or (b), as determined by the Investment Manager or Manager (as indicated in the Fund's prospectus) without notice.

Subscriptions are only valid if made on the basis of the Fund's current Prospectus. To be processed on a given dealing day: subscription requests into an Orbis Fund that is not an Orbis SICAV Fund must be submitted by 5:00 pm on that dealing day; subscription requests into an Orbis Fund that is an Orbis SICAV Fund must be submitted by 5:30 pm; redemption requests from an Orbis Fund that is not an Orbis SICAV Fund must be submitted by 12 noon; redemption requests from an Orbis Fund that is an Orbis SICAV Fund must be submitted by 5:30 pm; requests to switch from an Orbis Fund that is not an Orbis SICAV Fund to a different Orbis Fund that is also not an Orbis SICAV Fund must be submitted by 12 noon; requests to switch from an Orbis SICAV Fund into a different Orbis Fund that is not an Orbis SICAV Fund must be submitted by 5:00 pm; requests to switch from an Orbis SICAV Fund to a different Orbis Fund that is an Orbis SICAV Fund must be submitted by 12 noon; and requests to switch from an Orbis Fund that is an Orbis SICAV Fund to a different Orbis Fund that is also an Orbis SICAV Fund must be submitted by 5:30 pm. All times given are Bermuda time, and all requests must be properly completed and accompanied by any required funds and/or information.

Share prices, updated weekly, are available:

- for the Shared Investor RRF Share Class(es), Standard Share Class(es), and Investor Share Class(es), from the Orbis website at www.orbis.com.

Legal Notices

Returns are net of fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a ¥10,000 or €10,000 investment (lump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. Neither the Manager nor the Investment Manager provides any guarantee with respect to capital or the Fund's returns. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors' performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case transactions representing more than 5% of the Fund's net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trading time differences.

The discussion topics for the commentaries were selected, and the commentaries were finalised and approved, by Orbis Investment Management Limited, the Fund's Investment Manager. Information in this Report is based on sources believed to be accurate and reliable and provided "as is" and in good faith. The Orbis Group does not make any representation or warranty as to accuracy, reliability, timeliness or completeness of the information in this Report. The Orbis Group disclaims all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise) in connection with the information in this Report.

Fund Information

Prior to 29 November 2002 the Orbis SICAV Japan Equity Fund—Yen class was a British Virgin Islands investment company, Orbis Japan Equity (Yen) Fund Limited.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund's Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.

Fact Sheet at 31 August 2020

Orbis Optimal SA Fund
US$ Standard Class (A) and Euro Standard Class (A)

This Fact Sheet is a Minimum Disclosure Document and a monthly General Investor Report as required by the South African Financial Sector Conduct Authority.

Manager

Fund Inception date: 1 January 2005
Class Inception date: 14 May 2020

Number of shares
US$ Standard Class (A): 3,154,298
Euro Standard Class (A): 750,464

Income distributions during the last 12 months

Fund Objective and Performance Fee Benchmarks

The Fund is designed for investors seeking capital appreciation on a low risk global investment portfolio. The Fund’s returns are intended to be largely independent of the returns of major asset classes such as cash, equities and bonds. The Fund’s US$ Share Classes aim to outperform US$ Bank Deposits (compound total returns on one month US$ deposits, currently based on the Bloomberg USDRA rate), while its Euro Share Classes aim to outperform Euro Bank Deposits (compound total returns on one month Euro Deposits, currently based on the Bloomberg EURU rate).

How We Aim to Achieve the Fund’s Objective/Adherence to Objective

The Fund is actively managed and augments a focused portfolio of selected global equities with hedging of the risk of monetary loss arising from a decline in stockmarkets. It invests in shares considered to offer superior fundamental value. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity’s fundamental value. Orbis believes that over the long term, equity invested based on this approach offers superior returns and reduces the risk of loss.

Orbis believes the main risk of investing in its selected equities is that their prices will decline if relevant stockmarkets fall significantly. To reduce this risk, the Fund maintains a substantial core level of hedging. When Orbis’ research suggests that stockmarkets are overvalued and vulnerable, the Manager increases the hedging above this core level. Similarly, when Orbis’ research suggests that stockmarkets represent good value, the Manager lowers the hedging below the core level. The Manager’s actions in this regard are limited and the Fund therefore always maintains a significant level of hedging to protect investors from unexpected stockmarket declines. The result is that the Fund’s returns are driven mainly by the Manager’s ability to select equities the Outperformance of the respective stockmarket indices and not by the overall direction of equity markets. The Fund is therefore able to aim for absolute (or positive) returns.

The net returns of both the US$ and Euro Standard Class (A) Classes from their inception on 14 May 2020, were calculated using the net returns of the US$ and Euro Standard Classes respectively from the Fund’s inception to 14 May 2020, with the Fund’s respective performance fee benchmark and delivered positive returns.

Risk/Reward Profile

• The Fund is designed for investors seeking capital appreciation on a low risk global investment portfolio.
• Investments in the Fund may suffer capital loss.
• Investors should understand that the Manager generally assesses an equity investment’s attractiveness using a three-to-five year time horizon.

Management Fee

The Fund’s share classes bear different management fees. The fees are designed to align the Investment Manager’s interests with those of investors in the Fund.

There are two parts to the fee applicable to the Standard Share Class (A) Classes:

1. a base fee of 0.7% per annum, paid monthly, of the total net assets of each Standard Share Class (A); plus
2. a performance fee of 20% of the outperformance of each class of Standard Share Class (A)’s weekly rate of return relative to its performance fee benchmark (as described in the “Fund Objective and Performance Fee Benchmarks” section above), calculated and accrued on each dealing day and paid monthly. The performance fee incorporates a high water mark.

Investors in the Standard Share Class (A) Classes of the Fund separately pay an administrative fee directly to Allan Gray Proprietary Limited or one of its affiliates. The Investment Manager or one of its affiliates is entitled to receive a separate fee from Allan Gray Proprietary Limited or one of its affiliates in connection with this administrative fee, related to services the Investment Manager and its affiliates provide to Allan Gray Proprietary Limited or its affiliates. The amount of this fee may vary, but will not exceed 0.3% per annum. For purposes of determining the return on which the performance fee is calculated for the Standard Share Class (A) Classes, the administrative fee is deemed to be the maximum possible fee of 0.3% per annum, which then is deducted, along with the base fee, for purposes of calculating the gross return.

For a description of the management fee borne by the Fund’s other share classes, please refer to the Fund’s prospectus.

Fees, Expenses and Total Expense Ratio (TER)

The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager and additional service providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling investments. However, the Manager has agreed that in the current calendar year, except for specified exclusions, operating expenses attributable to each share class will be capped at 0.15% per annum. The cap will be automatically extended for further successive one year periods unless terminated by the Manager at least three months prior to the end of the then current term. The operating expenses that are capped are all expenses, excluding the Manager’s fees described above under “Management Fee,” the cost of buying and selling investments, interest and brokerage charges.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Manager may cause the Fund to levy a subscription or redemption fee of 0.50% of the net asset value of the Fund’s shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund and Class returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns.

Changes in the Fund’s Top 10 Holdings

Past performance is not a reliable indicator of future results. Orbis Fund share prices fluctuate and are not guaranteed. Returns may decrease or increase as a result of currency fluctuations. When making an investment in the Funds, an investor’s capital is at risk.

- for the Shared Investor RRF Share Class(es) and Standard Share Class(es), from the Orbis website at www.orbis.com.

Legal Notices

Returns are net of fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a $10,000 or €10,000 investment (lump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/ share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. The Manager provides no guarantee with respect to capital or the Fund’s returns. CIS are traded at ruling prices and can engage in borrowing and scrip-lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors’ performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case of transactions representing more than 5% of the Fund’s net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

The discussion topics for the commentaries were selected, and the commentaries were finalised and approved, by Orbis Investment Management Limited, the Fund’s Manager. Information in this Report is based on sources believed to be accurate and reliable and provided “as is” and in good faith. The Orbis Group does not make any representation or warranty as to accuracy, reliability, timeliness or completeness of the information in this Report. The Orbis Group disclaims all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise) in connection with the information in this Report.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund’s Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions; country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.

Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. The latest average fund indices provided by Morningstar are for 20 August 2020. To allow comparison of returns to a common date we have extended the average equity and multi-asset class fund indices to reflect the subsequent movement of the applicable benchmark indices. For the purposes of extending the Average Global Equity Fund Index as a comparator of the Orbis Optimal SA Fund, the FTSE World Index has been used. Average fund returns are not shown for periods of a month or less as high price volatility and late fund reporting regularly cause them to be significantly restated by Morningstar.

Total Rate of Return for Bank Deposits is the compound total return for one-month interbank deposits in the specified currency. Beta Adjusted Exposure is calculated as Equity Exposure multiplied by a Beta determined using Blume’s technique, minus Portfolio Hedging.
Orbis SICAV Emerging Markets Equity Fund

Shared Investor Refundable Reserve Fee Share Class (A) ("Shared Investor RRF Class (A)"

The Fund seeks higher returns than the average of the equity markets of the world's emerging market countries, without greater risk of loss. The performance fee benchmark ("Benchmark") of the Class is the MSCI Emerging Markets Index, including income, net of withholding taxes ("MSCI Emerging Markets Index"). Currency exposure is managed relative to that of the MSCI Emerging Markets Index.

For an initial period of time, the Shared Investor RRF Class (A) is charging the fee of the Investor Share Class, reduced by 0.3% per annum. Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. This temporary measure will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A). Information for the period before the inception of the Shared Investor RRF Class (A) on 14 May 2020 (date indicated by dashed line below) relates to the Investor Share Class.

On 1 November 2016, the Fund broadened its investment strategy from Asia ex-Japan equities to Emerging Markets equities. Prior to this date, the Fund was named the Orbis SICAV Asia ex-Japan Equity Fund, its Benchmark was the MSCI All Country Asia ex Japan (Net) (US$) Index, and its peer group was the Average Asia ex-Japan Equity Fund Index. Data for the period before 1 November 2016 relates to the Fund, and applicable Benchmark and peer group, prior to the change in strategy (as demonstrated in the striped area of the above charts). The performance achieved during this period was in circumstances that no longer apply. Please refer to the Fund’s prospectus for further details.

Past performance is not a reliable indicator of future results. Orbis Fund share prices fluctuate and are not guaranteed. Returns may decrease or increase as a result of currency fluctuations. When making an investment in the Funds, an investor’s capital is at risk. See Notices for important information about this Fact Sheet.

1 The Shared Investor RRF Class (A) will continue to charge the fee of the Investor Share Class, reduced by 0.3% per annum, until the earlier of the first dealing day (a) on or after 14 May 2023, or (b) on which the average management fee charged by the Investor Share Class equals or exceeds 1.5% per annum of the Investor Share Class' net assets for the period ending on that dealing day and beginning on the later of (i) 12 months prior to that dealing day, or (ii) 14 May 2020. Please refer to the Fund's prospectus for more details.

2 Full management fee consists of 1.5% per annum ± up to 1%, based on 3 year rolling performance/(underperformance) vs Benchmark. Beginning 14 May 2020, for its application to the Shared Investor RRF Class (A), this fee is reduced by 0.3% per annum.
Orbis SICAV Emerging Markets Equity Fund

Shared Investor Refundable Reserve Fee Share Class (A) (“Shared Investor RRF Class (A)"

This Fact Sheet is a Minimum Disclosure Document and a monthly General Investor Report as required by the South African Financial Sector Conduct Authority.

Fund Objective and Benchmark

The Fund seeks higher returns than the average of the equity stock markets of the world’s emerging market countries, without greater risk of loss. The MSCI Emerging Markets Index, including income, net of withholding taxes, is the Fund’s benchmark (the “MSCI Emerging Markets Index”).

How We Aim to Achieve the Fund’s Objective/Adherence to Objective

The Fund is actively managed and is designed to be exposed to all of the risks and rewards of selected Emerging Market equities. The Fund expects to be not less than 90% invested in Emerging Market equity and equity-linked investments. The Fund identifies Emerging Market equity and equity-linked investments as those investments that are issued by a corporate body or other entity domiciled or primarily located in a country represented in the MSCI Emerging Markets Index or the MSCI Frontier Markets Index (together, “Emerging Markets”), traded or listed on an exchange in an Emerging Market or issued by a corporate body or other entity whose business is significantly linked to Emerging Markets. These equities are selected using extensive proprietary investment research. Orbis devotes a substantial proportion of its business efforts to detailed “bottom up” investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity’s fundamental value. The Investment Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss. The Fund may, to the extent permitted by its investment restrictions, also periodically hold cash and cash equivalents when the Investment Manager considers this to be consistent with the Fund’s investment objective.

Exchange rate fluctuations significantly influence global investment returns. For this reason, part of Orbis’ research effort is devoted to forecasting currency trends. Taking into account these expected trends, the Investment Manager actively reviews the Fund’s currency exposure, focusing, in particular, on managing the Fund’s exposure to those currencies considered less likely to hold their long-term value.

The Fund does not seek to mirror the MSCI Emerging Markets Index and may deviate meaningfully from it in pursuit of superior long-term capital appreciation.

The net returns of the Shared Investor RRF Class (A) from its inception on 14 May 2020, with the net returns of the Investor Share Class from the Fund’s inception to 14 May 2020, have underperformed the stitched MSCI Emerging Markets Index or the MSCI Frontier Markets Index (together, “Emerging Markets”), traded or listed on an exchange in an Emerging Market or issued by a corporate body or other entity whose business is significantly linked to Emerging Markets. These equities are selected using extensive proprietary investment research. Orbis devotes a substantial proportion of its business efforts to detailed “bottom up” investment research conducted with a long-term perspective, believing that such research makes superior long-term performance attainable. The lower the price of a share as compared to its assessed intrinsic value, the more attractive Orbis considers the equity’s fundamental value. The Investment Manager believes that over the long term, equity investing based on this approach offers superior returns and reduces the risk of loss. The Fund may, to the extent permitted by its investment restrictions, also periodically hold cash and cash equivalents when the Investment Manager considers this to be consistent with the Fund’s investment objective.

Exchange rate fluctuations significantly influence global investment returns. For this reason, part of Orbis’ research effort is devoted to forecasting currency trends. Taking into account these expected trends, the Investment Manager actively reviews the Fund’s currency exposure, focusing, in particular, on managing the Fund’s exposure to those currencies considered less likely to hold their long-term value.

The Fund does not seek to mirror the MSCI Emerging Markets Index and may deviate meaningfully from it in pursuit of superior long-term capital appreciation.

The net returns of the Shared Investor RRF Class (A) from its inception on 14 May 2020, with the net returns of the Investor Share Class from the Fund’s inception to 14 May 2020, have underperformed the stitched MSCI Emerging Markets Index or the MSCI Frontier Markets Index (together, “Emerging Markets”), traded or listed on an exchange in an Emerging Market or issued by a corporate body or other entity whose business is significantly linked to Emerging Markets. The Fund may, to the extent permitted by its investment restrictions, also periodically hold cash and cash equivalents when the Investment Manager considers this to be consistent with the Fund’s investment objective.

Risk/Reward Profile

- The Fund is aimed at investors who are seeking a portfolio the objective of which is to be invested in, and exposed to, Emerging Market securities.
- Investments in the Fund may suffer capital loss.
- Investors should understand that the Investment Manager generally assesses an equity investment’s attractiveness using a three-to-five year time horizon.
- Investors should understand that the Investment Manager generally assesses an equity investment’s attractiveness using a three-to-five year time horizon.

Management Fee

As is described in more detail in the Fund’s Prospectus, the Fund’s various share classes bear different management fees. The fees are designed to align the Manager’s and Investment Manager’s interests with those of investors in the Fund.

For an initial period of time, the Shared Investor RRF Class (A) is charging the fee of the Investor Share Class, reduced by 0.3% per annum. Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. The Investor Share Class fee will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A). The fee of the Investor Share Class that is currently being charged to the Shared Investor RRF Class (A) is calculated as follows:

The fee rate is calculated weekly by comparing the Class’ performance over three years against the MSCI Emerging Markets Index. For each percentage point of three year performance above or below that performance, 0.04 percentage points are added to or deducted from 1.5%, subject to the following limits:

- Maximum fee: 2.5% per annum
- Minimum fee: 0.5% per annum

This fee is then reduced by 0.3% per annum. This 0.3% per annum reduction is provided because investors in the Shared Investor RRF Class (A) are subject to an additional administrative fee, as they separately agree with Allan Gray Proprietary Limited or one of its affiliates from time to time.

The Shared Investor RRF Class (A) will continue to charge the fee of the Investor Share Class, reduced by 0.3% per annum, until the earlier of the first dealing day (a) on or after 14 May 2023, or (b) on which the average management fee charged by the Investor Share Class equals or exceeds 1.5% per annum of the Investor Share Class’ net assets for the period ending on that dealing day and beginning on the later of (i) 12 months prior to that dealing day, or (ii) 14 May 2020. After this point, the Class’ management fee will instead be charged as follows:

- Base Fee: 1.5%
- Performance Fee: Calculated and accrued weekly at a rate of 0.8% per annum of the Class’ net asset value. Investors separately pay an administrative fee directly to Allan Gray Proprietary Limited or one of its affiliates. The Investment Manager or one of its affiliates is entitled to receive a separate fee from Allan Gray Proprietary Limited or one of its affiliates in connection with this administrative fee, related to services the Investment Manager and its affiliates provide to Allan Gray Proprietary Limited or its affiliates.

- Refundable Performance Fee: When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and an additional 0.3% per annum, which is deemed to be representative of the aforementioned administrative fee) beats the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the outperformance is paid into a reserve and reinvested into the Fund. If the value of the reserve is positive on any dealing day, the Investment Manager is entitled to a performance fee in an amount capped at the lesser of an annualised rate of (a) one-third of the reserve’s net asset value and (b) 2.5% of the net asset value of the Shared Investor RRF Class (A). Fees paid from the reserve to the Investment Manager are not available to be refunded as described below.

When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and the aforementioned additional 0.3% per annum) trails the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the underperformance is refunded from the reserve to the Shared Investor RRF Class (A). If at any time sufficient value does not exist in the reserve to provide the refund, a reserve recovery mark is set, and subsequent underperformance is tracked. Such relative losses must be recovered before any outperformance results in any payment to the reserve.

Please review the Fund’s prospectus for additional detail and for a description of the management fee borne by the Fund’s other share classes.
Orbis SICAV Emerging Markets Equity Fund
Shared Investor Refundable Reserve Fee Share Class (A) (“Shared Investor RRF Class (A)"

Fees, Expenses and Total Expense Ratio (TER)
The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager, Investment Manager and additional service providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling assets.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Manager may cause the Fund to levy a fee of 0.75% of the net asset value of the Fund shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund and Class returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

- for the Shared Investor RRF Share Class(es), Standard Share Class(es), and Investor Share Class(es), from the Orbis website at www.orbis.com.

Legal Notices

Returns are net of fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a $10,000 investment (jump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. Neither the Manager nor the Investment Manager provides any guarantee with respect to capital or the Fund’s returns. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors’ performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case of transactions representing more than 5% of the Fund’s net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

The discussion topics for the commentaries were selected, and the commentaries were finalised and approved, by Orbis Investment Management Limited. Information in this Report is based on sources believed to be accurate and reliable and provided “as is” and in good faith. The Orbis Group does not make any representation or warranty as to accuracy, reliability, timeliness or completeness of the information in this Report. The Orbis Group disclaims all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise) in connection with the information in this Report.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund’s Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.

The latest average fund indices provided by Morningstar are for 20 Aug 2020. To allow comparison of returns to a common date we have extended the average equity and multi-asset class fund indices to reflect the subsequent movement of the applicable benchmark indices. Average fund returns are not shown for periods of a month or less as high price volatility and late fund reporting regularly cause them to be significantly restated by Morningstar.
Orbis SICAV
Global Balanced Fund

**Shared Investor Refundable Reserve Fee Share Class (A) (“Shared Investor RRF Class (A)”)**

The Fund seeks to balance investment returns and risk of loss with a diversified global portfolio of equity, fixed income and commodity-linked instruments. It aims to earn higher long-term returns than its benchmark (“Benchmark”), which is comprised of 60% MSCI World Index with net dividends reinvested and 40% JP Morgan Global Government Bond Index (“60/40 Index”), each in US dollars.

For an initial period of time, the Shared Investor RRF Class (A) is charging the fee of the Investor Share Class, reduced by 0.3% per annum. Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. This temporary measure will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A).

**Growth of US$10,000 investment, net of fees, dividends reinvested**

Information for the period before the inception of the Shared Investor RRF Class (A) on 14 May 2020 (date indicated by dashed line above) relates to the Investor Share Class.

4. **Number of months since the start of the drawdown. This drawdown is not yet recovered.**
5. **Full management fee consists of 15% per annum ± up to 1%, based on 3 year rolling outperformance(outunderperformance) vs Benchmark. Beginning 14 May 2020, for its application to the Shared Investor RRF Class (A), this fee is reduced by 0.3% per annum.**
Orbis SICAV Global Balanced Fund

This Fact Sheet is a Minimum Disclosure Document and a monthly General Investor Report as required by the South African Financial Sector Conduct Authority.

Orbis Investment Management Limited (licensed to conduct investment business by the Bermuda Monetary Authority)

Fact Sheet at 31 August 2020

Fund Objective and Benchmark

The Fund seeks to balance investment returns and risk of loss with a diversified global portfolio of equities, fixed income instruments and commodity-linked instruments. It aims for higher long-term returns than its designated combined equity and bond performance benchmark, which is comprised of 60% MSCI World Index with net dividends reinvested and 40% J.P. Morgan Global Government Bond Index, each expressed in US$ (the “60/40 Index” or “benchmark”).

How We Aim to Achieve the Fund’s Objective/Adherence to Objective

The Fund is actively managed and invests in equities, fixed income instruments and commodities. The Fund’s asset allocations among the different asset classes are determined based on their appreciation, income and risk of loss potential, with appropriate diversification.

Equities: The Investment Manager targets the Fund to hold 40-90% of its net asset value in a pool of global equities, including some which may provide exposure to real estate. The Fund invests in shares considered to offer fundamental value and dividend paying potential that is superior to its benchmark. The lower the price of a share as compared to its assessed intrinsic value, the more attractive the investment’s fundamental value.

The Investment Manager believes the main risk of investing in equities is that their prices will decline if relevant stockmarkets fall significantly. To reduce this risk, when Orbis’ research suggests that stockmarkets are overvalued and vulnerable, the Investment Manager may reduce exposure to, or hedge, stockmarket risk. When Orbis’ research suggests that stockmarkets represent good value, the Investment Manager may increase exposure to stockmarket risk by increasing the amount of that hedging. The Investment Manager intends to limit the Fund’s exposure to stockmarkets net of hedging to 75% of its net asset value. Furthermore, the Fund may buy and sell exchange-traded equity call and put options for investment efficiency purposes. Depending on how close the extent the Fund is capable of meeting its payment or delivery obligations related to such options, for example, by holding the underlying security.

Fixed Income Instruments: The Investment Manager targets the Fund to hold 10-50% of its net asset value in fixed income instruments issued by corporate bodies, governments and other entities. These are selected – like equities – with the aim of increasing the Fund’s overall risk-adjusted return. Characteristics such as yield, liquidity and potential diversification benefits are viewed in the context of the risk and returns of the portfolio as a whole. When Orbis’ research suggests that bond markets are overvalued and vulnerable, the Investment Manager may reduce exposure to, or hedge, bond market risk. When Orbis’ research suggests that bond markets represent stronger value, the Investment Manager may increase exposure to bond market risk by decreasing the amount of that hedging. The Investment Manager intends to limit aggregate hedging of the Fund’s stockmarket and bond market exposure to no more than 30% of its net asset value. Importantly, the Investment Manager may cause the Fund to be over this hedging target, at times meaningfully so and/or for extended periods of time where it considers this to be in the best interest of the Fund. The Fund’s fixed income selections in aggregate may differ significantly from the benchmark in duration and credit quality and may include securities of issuers that are under bankruptcy or similar judicial reorganisation, notably distressed debt. In addition, the Fund may invest in money market instruments, cash, cash equivalents and high yield bonds.

Commodity-linked Instruments: The Investment Manager targets the Fund to hold 0-10% of its net asset value in commodity-linked instruments, which may then be hedged to commodities. The Fund will gain exposure to commodities if the Investment Manager’s investment research process identifies a commodity or class of commodities as being more attractive than overall equity and fixed income opportunities, taking into account any risk reduction benefits of diversification. Exchange rate fluctuations significantly influence global investment returns. For this reason, part of Orbis’ research effort is devoted to forecasting currency trends. Taking into account these expected trends, the Investment Manager targets the Fund’s currency exposure. In doing so, it places particular focus on managing the Fund’s exposure to those currencies less likely to hold their long-term value.

The Investment Manager may cause the Fund to be under or over the asset allocation benchmarks described above where it considers this to be in the best interest of the Fund. The Fund’s holdings may deviate meaningfully from the 60/40 Index.

Management Fee

As is described in more detail in the Fund’s Prospectus, the Fund’s various share classes bear different management fees. The fees are designed to align the Manager’s and Investment Manager’s interests with those of investors in the Fund.

For an initial period of time, the Shared Investor RRF Class (A) is charging the fee of the Investor Share Class, reduced by 0.3% per annum. Numerous investors have switched to the Shared Investor RRF Class (A) from the Investor Share Class. This temporary measure will ensure that the fees paid by investors account for underperformance experienced by the Investor Share Class before the inception date of the Shared Investor RRF Class (A). The fee of the Investor Share Class that is currently being charged to the Shared Investor RRF Class (A) is calculated as follows:

The fee rate is calculated weekly by comparing the Class’ performance over three years against the 60/40 Index. For each percentage point of three year performance above or below that benchmark’s performance, 0.04 percentage points are added to or subtracted from 1.5%, subject to the following limits:

- Maximum fee: 2.5% per annum
- Minimum fee: 0.5% per annum

This fee is then reduced by 0.5% per annum. This 0.5% per annum reduction is provided because investors in the Shared Investor RRF Class (A) are subject to an additional administrative fee, as they separately agree with Allan Gray Proprietary Limited (or one of its affiliates) from time to time.

The Shared Investor RRF Class (A) will continue to charge the fee of the Investor Share Class, reduced by 0.3% per annum, until the earlier of the first dealing day (a) on or after 14 May 2023, or (b) on which the average management fee charged by the Investor Share Class equals or exceeds 1.5% per annum of the Investor Share Class’ net assets for the period ending on that dealing day and beginning on the later of (i) 12 months prior to that dealing day, or (ii) 14 May 2020. After this point, the Class’ management fee will instead be charged as follows:

- Base Fee: Calculated and accrued weekly at a rate of 0.8% per annum of the Class’ net asset value. Investors separately pay an administrative fee directly to Allan Gray Proprietary Limited or one of its affiliates. The Investment Manager or one of its affiliates is entitled to receive a separate fee from Allan Gray Proprietary Limited or one of its affiliates in connection with this administrative fee, related to services the Investment Manager and its affiliates provide to Allan Gray Proprietary Limited or its affiliates.

- Refundable Performance Fee: When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and an additional 0.3% per annum, which is deemed to be representative of the aforementioned administrative fee) beats the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the outperformance is paid into a reserve and reinvested into the Fund. If the value of the reserve is positive on any dealing day, the Investment Manager is entitled to a performance fee in an amount capped at the lesser of an annualised rate of (a) one-third of the reserve’s net asset value and (b) 2.5% of the net asset value of the Shared Investor RRF Class (A). Fees paid from the reserve to the Investment Manager are not available to be refunded as described below.

When the performance of the Shared Investor RRF Class (A) (after deducting the Base Fee and an additional 0.3% per annum) trails the Performance Fee Benchmark over the period from one dealing day to the next, 25% of the value of the underperformance is refunded from the reserve to the Shared Investor RRF Class (A). If at any time sufficient value does not exist in the reserve to provide the refund, a reserve recovery mark is set, and subsequent underperformance is tracked. Such relative losses must be recovered before any outperformance results in any payment to the reserve.

Please review the Fund’s prospectus for additional detail and for a description of the management fee borne by the Fund’s other share classes.
Fees, Expenses and Total Expense Ratio (TER)

The relevant class within the Fund bears all expenses payable by such class, which shall include but not be limited to fees payable to its Manager, Investment Manager and additional services providers, fees and expenses involved in registering and maintaining governmental registrations, taxes, duties and all other operating expenses, including the cost of buying and selling assets. However, the Manager and the Investment Manager have agreed that in the current calendar year, except for specified exclusions, operating expenses attributable to the Fund’s Shared Investor RRF Class (A) will be capped at 0.20%. Please refer to the Fund’s Prospectus for a description of the fee cap applicable to its other share classes. Each cap will be automatically extended for further successive one year periods unless terminated by the Manager or the Investment Manager at least three months prior to the end of the then current term. The operating expenses that are capped are all expenses, excluding the Manager’s and Investment Managers’ fees described above under “Management Fee,” the cost of buying and selling assets, interest and brokerage charges.

Where an investor subscribes or redeems an amount representing 5% or more of the net asset value of the Fund, the Manager may cause the Fund to levy a fee of 0.40% of the net asset value of the Fund’s shares being acquired or redeemed.

The annual management fees charged are included in the TER. The TER is a measure of the actual expenses incurred by the class over a 12 month period, excluding trading costs. Since Fund and Class returns are quoted after deduction of these expenses, the TER should not be deducted from the published returns. Expenses may vary, so the current TER is not a reliable indicator of future TERs.

Risk/Reward Profile

• The Investment Manager aims to contain the risk of monetary loss to a level that is below the risk of loss experienced by global equity funds but higher than that experienced by government bond funds and cash deposits over the long term. Investors should be aware that this expected reduction in risk of loss comes at the expense of long-term expected return.

• While the Investment Manager expects the Fund’s investment approach to result in volatility below that of a typical global equity fund, the Fund’s net asset value will fluctuate, and the Fund will experience periods of volatility and negative returns; investments in the Fund may suffer capital loss.

• Investors should understand that the Investment Manager generally assesses an investment’s attractiveness over a three-to-five year time horizon.

- for the Shared Investor RRF Share Class(es), Standard Share Class(es), and Investor Share Class(es), from the Orbis website at www.orbis.com.

Legal Notices

Returns are net of fees, include income and assume reinvestment of dividends. Figures quoted are for the periods indicated for a $10,000 investment ( lump sum, for illustrative purposes only). Annualised returns show the average amount earned on an investment in the Fund/share class each year over the given time period. This Report does not constitute advice nor a recommendation to buy, sell or hold, nor an offer to sell or a solicitation to buy interests or shares in the Orbis Funds or other securities in the companies mentioned in it.

Collective Investment Schemes (CIS) are generally medium to long-term investments. The value of an investment in the Fund may go down as well as up, and past performance is not a reliable indicator of future results. Neither the Manager nor the Investment Manager provides any guarantee with respect to capital or the Fund’s returns. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Commission and incentives may be paid by investors to third parties and, if so, would be included in the overall costs. Individual investors’ performance may differ as a result of investment date, reinvestment date and dividend withholding tax, as well as a levy that may apply in the case of transactions representing more than 5% of the Fund’s net asset value. The Fund may be closed to new investments at any time in order to be managed in accordance with its mandate. The Fund invests in foreign securities. Depending on their markets, trading in those securities may carry risks relating to, among others, macroeconomic and political circumstances, constraints on liquidity or the repatriation of funds, foreign exchange rate fluctuations, taxation and trade settlement.

The discussion topics for the commentaries were selected, and the commentaries were finalised and approved, by Orbis Investment Management Limited, the Fund’s Investment Manager. Information in this Report is based on sources believed to be accurate and reliable and provided “as is” and without any representation or warranty as to accuracy, reliability, timeliness or completeness of the information in this Report. The Orbis Group disclaims all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise) in connection with the information in this Report.

Fund Information

The benchmark is a composite index consisting of the MSCI World Index with net dividends reinvested (60%) and the J.P. Morgan Global Government Bond Index (40%).

Net Equity is Gross Equity minus stockmarket hedging. Fixed Income refers to fixed income instruments issued by corporate bodies, governments and other entities, such as bonds, money market instruments and cash and cash equivalents. Fixed Income regional allocation is based on the currency denomination of the instrument. Net Fixed Income is Gross Fixed Income minus bond market hedging.

Fund Minimum

Minimum investment amounts in the Fund are specified in the Fund’s Prospectus, provided that a new investor in the Orbis Funds must open an investment account with Orbis, which may be subject to minimum investment restrictions, country restrictions and/or other terms and conditions. For more information on opening an Orbis investment account, please visit www.orbis.com.

Clients investing via Allan Gray, which includes the Allan Gray Investment Platform, an Allan Gray investment pool or otherwise through Allan Gray Nominees, remain subject to the investment minimums specified by the applicable terms and conditions.

Sources

The 60/40 Index values are calculated by Orbis using end of day index level values licensed from MSCI (“MSCI Data”). For the avoidance of doubt, MSCI is not the benchmark “administrator” for, or a “contributor”, “submitter” or “supervised contributor” to, the blended returns, and the MSCI Data is not considered a “contribution” or “submission” in relation to the blended returns, as those terms may be defined in any rules, legislation, legislation or international standards. MSCI Data is provided “as is” without warranty or liability and no copying or distribution is permitted. MSCI does not make any representation regarding the advisability of any investment or strategy and does not sponsor, promote, issue, sell or otherwise recommend or endorse any investment or strategy, including any financial products or strategies based on, tracking or otherwise utilising any MSCI Data, models, analytics or other materials or information. J.P. Morgan Global Government Bond Index (the “GBI”): Information has been obtained from sources believed to be reliable but J.P. Morgan does not warrant its completeness or accuracy. The GBI is used with permission. Copyright 2020, J.P. Morgan Chase & Co. All rights reserved. The 60/40 Index may not be copied, used, or distributed without prior written approval.

Average Fund data source: © 2020 Morningstar, Inc. All rights Reserved. Such information (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor any content provider shall be responsible for any errors or delays in the content, or for any actions taken in reliance thereon. The average fund indices provided by Morningstar are for 20 August 2020. To allow comparison of returns to a common date we have extended the average equity and multi-asset class fund indices to reflect the subsequent movement of the applicable benchmark indices. Average fund returns are not shown for periods of a month or less as high price volatility and late fund reporting regularly cause them to be significantly restated by Morningstar.
Notes to Help You Understand This Report

Certain capitalised terms are defined in the Glossary section of the Orbis Funds’ respective Prospectuses, copies of which are available upon request from Allan Gray Unit Trust Management (RF) Proprietary Limited, a Member of the Association for Savings & Investments SA. The country, currency and Emerging Market classification for securities follows that of third-party providers for comparability purposes. Emerging Markets includes Frontier Markets. Based on a number of factors including the location of the underlying business, Orbis may consider a security’s classification to be different and manage the Funds’ exposures accordingly. Totals presented in this Report may not sum due to rounding.

Risk measures are ex-post and calculated on a monthly return series. Months to recovery measures the number of months from the preceding peak in performance to recovery of that level of performance.

12 month portfolio turnover for the Orbis Equity and Multi-Asset Class Funds is calculated as the lesser of total security purchases or sales in the Fund over the period, divided by the average net asset value (NAV) of the Fund. Short-term fixed income instruments are not included.

12 month name turnover for the Orbis Equity and Multi-Asset Class Funds is calculated as the number of positions held by the Fund at the start of the period but no longer held at the end of the period, divided by the total number of positions held by the Fund at the start of the period. Short-term fixed income instruments are not included.

Active share is a measure of the extent to which the holdings of the Orbis Equity and Multi-Asset Class Funds differ from their respective benchmark’s holdings. It is calculated by summing the absolute value of the differences of the weight of each individual security in the specific Orbis Fund, versus the weight of each holding in the respective benchmark index, and dividing by two. For the Multi-Asset Class Funds, three calculations of active share are disclosed. The Portfolio active share incorporates the equity, fixed income, commodity-linked and other securities (as applicable) held by the Orbis Fund and compares those to the holdings of the composite benchmark. The Equity and Fixed Income active shares are calculated as if the equity and fixed income portions of the Orbis Funds are independent funds; each of those two sets of holdings is separately compared to the fully-weighted holdings in the appropriate component of the composite benchmark. Although the Multi-Asset Class Funds hedge stock and bond market exposure, the active share calculations are “gross” and not adjusted to reflect the hedging in place at any point in time.

The total expense ratio has been calculated using the expenses, excluding trading costs, for the 12 month period ending 31 August 2020.
