

SESFIKILE BCI PROPERTY FUND (B2)

Minimum Disclosure Document (Fund Factsheet)

FUND OBJECTIVE

The Sesfikile Boutique Collective Investments Property Fund Class B2 is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE All Property Index (J803) over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream but is willing to be exposed to an element of capital volatility. The portfolio may from time to time invest in listed and unlisted financial instruments.

SESIKILE BCI PROPERTY FUND (B2)
 Minimum Disclosure Document (Fund Factsheet)

FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts (“REITs”) or listed property companies. The investment manager will also be allowed to invest in financial instruments and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research;
- While ultimate portfolio construction adheres to Sesfikile’s unique “Four D” approach:
 - Our passion for direct property
 - Getting stuck in the detail
 - Understanding the broader drivers of property investment
 - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after-fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGER INFORMATION

Evan Jankelowitz, Mohamed Kalla and Naeem Tilly co-manage the Sesfikile BCI Property Fund.

The Sesfikile Investment Team, which consists of five individuals, boasts combined experience of more than 70 years in the listed property sector, making them amongst the most experienced teams in the market. Since inception, the Team has been able to deliver consistent benchmark and peer relative outperformance.

MARKET REVIEW

June saw markets in turmoil as central banks globally pushed funding costs higher to curb rapidly rising inflation. The pace of projected rate hikes has created fear amongst investors that the global economy could contract. Long bond yields across the globe started to soften towards month end as the potential for recession trumped the initial inflation fears.

The ALPI fell 10.5% in June, underperforming Equities (-8.0%) and Bonds (-3.1%). Bonds outperformed property as the yield curve steepened resulting in more pain in the longer end of the curve, which is usually used as a proxy to listed property valuations.

Underlying inflation in South Africa at both consumer and producer levels remains well below headline inflation; however, PPI data for May showed an alarmingly sharp spike in “core” PPI (excluding food and fuel prices, on a seasonally adjusted basis). In our view inflation is likely to peak within the next few months and the bond market will soon start to price for this normalisation.

Interestingly, company updates and results were largely positive, with the likes of Industrial REIT, Sirius and Vukile all printing highly impressive numbers, however macro woes weighed down on valuations despite surprisingly strong operations in several cases.

Towards the end of the quarter, Eskom announced stage 6 load shedding. While most assets in the listed sector have backup generators, the costs of running these and the impact on overall economic growth is detrimental to demand. The resultant negative sentiment also weighed down on the market.

What was evident is that there seems to be a disconnect between property fundamentals and listed share prices. Markets are forward looking and the expected slowdown in economic growth from rapid rates hikes and inflation has not translated into deteriorating conditions on the ground. We are not suggesting that recessionary fears are overdone. We do however believe that, in South Africa specifically, valuations have more than sufficiently priced in further economic weakness.

TER AND TRANSACTION COST (INCL. VAT)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2021, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 31 March 2022.

SESEFIKILE BCI PROPERTY FUND

CLASS	TOTAL EXPENSE RATIO (TER)	TRANSACTION COST (TC)	TOTAL INVESTMENT CHARGES (TER +TC)
A	0.77%	0.11%	0.88%
	Of the value of the fund was incurred as expenses relating to the administration of the fund.	Of the value of the fund was incurred as costs relating to buying and selling of assets underlying the fund.	Of the value of the fund was incurred as costs relating to the investment of the fund.

EFFECTIVE ANNUAL COST ("EAC")

Boutique Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. BCI calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.bcis.co.za.
