FUND OBJECTIVE
The Sesfikile Boutique Collective Investments Property Fund Class B2 is a portfolio which aims to deliver both a high income yield as well as capital growth over the medium to long term. Our objective is to deliver total returns (consisting of income and capital) that outperform the FTSE/JSE All Property Index (J803) over a 3 to 5 year investment horizon. The fund is suitable for investors who are looking for a viable property component to a balanced portfolio; or alternatively an investor looking for a growing income stream but is willing to be exposed to an element of capital volatility.

PERFORMANCE (NET OF FEES)

Investment performance is for illustrative purposes only and calculated by taking actual initial fees and ongoing fees into account for amount shown with income reinvested on reinvestment date.
FUND STRATEGY

This fund aims to outperform the benchmark by investing in listed property companies with sustainable income growth underpinned by strong property fundamentals. In addition to these core holdings, the fund makes use of tactical stock selection to capitalise on short-term market mispricing and corporate action opportunities.

INVESTMENT POLICY

The policy is to invest in JSE listed Real Estate Investment Trusts (“REITs”) or listed property companies. The investment manager will also be allowed to invest in financial instruments and cash as allowed by the act from time to time in order to achieve its investment objective. Furthermore, and as legislation permits, the manager shall be permitted to invest in offshore listed property investments on behalf of the Sesfikile BCI Property Fund.

WHY CHOOSE THIS FUND?

The fund offers active best of breed management within a sector that offers income and capital growth over time:

- All shares are subject to rigorous, in-depth research;
- While ultimate portfolio construction adheres to Sesfikile’s unique “Four D” approach:
  - Our passion for direct property
  - Getting stuck in the detail
  - Understanding the broader drivers of property investment
  - Taking views on corporate action deals and finding the hidden potential in the sector.
- Through extensive experience in the listed property sector, we believe our team has the ability to identify the key differentiators to performance and ultimately the factors that impact total returns for clients. Importantly, given our commitment to capping the total size of assets under management we will remain nimble enough to execute on investment ideas effectively over the medium to long term.
- Since inception, our investment process has been able to deliver consistent low-risk outperformance of the benchmark on an after fee basis. Although this is no guarantee of future performance, we are confident in our robust investment and risk management process and alignment of interest with clients will consistently steer us towards identifying value added investment opportunities.

FUND MANAGERS

The three founding directors, Evan Jankelowitz, Mohamed Kalla and Kundayi Munzara co-manage the Sesfikile BCI Property Fund.

November saw some sanity prevail as listed property started to close the value gap that has prevailed for much of the year. The ALPI and SAPY delivered returns of 18.4% and 17.5% respectively over the month. Not only did property show attractive absolute performance, but it also outshone both equities (+10.5%) and bonds (+3.3%) for the first time this year.

The obvious catalysts were the US election results coupled with the positive vaccine results which followed. The ‘risk-on’ trade pushed the sector, which was extrapolated by the fact that sellers were scarce and new found confidence created a barrage of buying.

The ferocious rotation into value stocks, as seen in global markets in November, was the key theme in the domestic property sector as well. Vukile (+45.0%), Hyprop (+40.2%) and Hammerson (+38.3%), all previously punished due to their retail heavy exposure and balance sheet risks, were amongst the top performing counters. The former’s price was also supported by an interim set of results which highlighted the strong performance of its local retail portfolio albeit with limited progress on balance sheet issues. On the other hand, MAS Real Estate (-3%), L2D (+1%), Investec Australia (+23.3%) and Sterenprop (+2.9%) lagged, owing in part to the abovementioned theme as well as the strengthening local currency, which gained about 4% against the Euro.

In addition to Vukile, several stocks reported results in November. On a whole, the operational performance and collection rates were better than expectations, but balance sheet issues remain for some counters. Arrowhead impressed with aggressive disposals lowering its LTV under 40%. Growthpoint successfully raised about R4bn, with the proceeds used to reduce its debt. While dilutive to both earnings and NAV, the short time taken and strong interest (2.7x oversubscribed), both locally and from offshore investors, was encouraging.

Despite the rally, listed property still finds itself some 45.6% down year-to-date. While the recent strength has gathered momentum into December, the sector is still offering upside. Market fundamentals are still weak though, however we feel this is baked into the price already. It will be a bumpy ride ahead as Covid waves ebb and flow, but we do believe low double digit returns are feasible in the upcoming 12 months.
