Vulcan Value Partners ("Vulcan") is a value-driven, long-only equity asset management firm. Vulcan was founded in 2007, manages approximately $10.9 billion and is based in Birmingham, Alabama.

Vulcan Value Equity Fund (the "Fund") has the scope to buy equities globally but it is anticipated that it will have a strong bias to US listed equities. The Fund focuses on identifying high quality, publicly traded businesses that are priced at a discount to their intrinsic value.

The greater the average discount to intrinsic value the more concentrated the Fund is likely to be.

The Fund is a sub-fund of Vulcan Global Value Fund plc (the "Company") authorised in Ireland by the Central Bank of Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities "UCITS") regulations 2011 (SI No 352 of 2011), as amended.

The performance data quoted represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance data quoted. The Fund’s returns are published net of fees and do not take account of any commissions and costs incurred on the issue and redemption of units. Returns for other share classes will differ from those shown above. The return and principal value of an investment will fluctuate, so that an investor’s shares, when redeemed, may be worth more or less than their original cost.

South Africa:
This is a Minimum Disclosure Document. Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up or
well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Investment Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor’s fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of prs, levies and fees related to the management of the portfolio. The issue date for this fact sheet is the 10th of April 2020.

The above risk category is not guaranteed and is likely to shift over time where the Investment Manager proposes to move to lower risk levels if it believes market conditions are going to deteriorate. However investors should note that moving to lower risk levels will not eliminate risk altogether. The Investment Manager’s strategy generally defines risk as the probability of permanently losing capital over a five-year period. The Fund, due to the global nature of its investments, will hold assets in currencies other than the Fund’s base currency, which is US Dollar. The value of these assets will not only be affected by movements in the underlying markets but also by movement in the value of the currency in which they are held. The Investment Manager does not intend to seek to hedge this currency risk. For further detail please see the “Risk Factors” section of the Prospectus for the Company.

Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Northern Trust International Fund Administration Services (Ireland) Limited by or before 13:00 (SA), to be transacted at the NAV (defined above) price for that day. Where all required documentation is not received before the stated cut off time Northern Trust shall not be obliged to transact at the NAV price as agreed to. Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the Investment Manager on request.
