Registered in England No. 2020394. For your protection telephone calls are usually recorded. BlackRock is a trading name of BlackRock Investment Management (UK) Limited. Past performance is not a guide to future performance. The value of investments and the income from them can fall as well as rise and is not guaranteed. You may not get back the amount originally invested. The Funds may be exposed to the following non-exhaustive list of risks, including financial derivative instrument risks, currency risk, counterparty defaults and taxation risk. Please refer to the Prospectus for further details of risk factors relevant to an investment in the Fund and other important information. The sub-funds may engage in investment strategies not described herein that the Investment Manager considers appropriate. Any research in this document has been procured and may have been acted on by BlackRock for its own purpose. The results of such research are being made available only incidentally. The views expressed do not constitute investment or any other advice and are subject to change. They do not necessarily reflect the views of any company in the BlackRock Group or any part thereof and no assurances are made as to their accuracy. This document is for information purposes only and does not constitute an offer or invitation to anyone to invest in any BlackRock funds and has not been prepared in connection with any such offer. BlackRock Global Index Funds (BGIF) is an open ended variable capital investment company established under the laws of the Grand Duchy of Luxembourg which is available for sale in certain jurisdictions only. BGIF is not available for sale in the U.S. or to U.S. persons. Product information concerning BGIF should not be published in the U.S. BlackRock Investment Management (UK) Limited is the UK distributor of BGIF. Most of the protections provided by the UK regulatory system, and the compensation under the Financial Services Compensation Scheme, will not be available. Subscriptions in BGIF are valid only if made on the basis of the current Prospectus, the most recent financial reports and the Key Investor Information Document, which may not be available to investors in certain jurisdictions where the Fund in question has not been authorised. The BGIF range employs a swing-pricing methodology in order to protect existing investors from the dilution impact of trading costs caused by shareholder activity in the funds. Furthermore, where Funds invest in securities markets that are closed for trading at the Fund's valuation point, an additional adjustment may be applied to protect investors from stale pricing and market timing speculation ("fair value adjustment"). The published Net Asset Value (NAV) may include such adjustments which have the potential to distort apparent performance and tracking error. © 2022 BlackRock, Inc. All Rights reserved. SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	AAA	MSCI ESG Quality Score (0-10)	9.08
MSCI ESG Quality Score - Peer Percentile	57.77%	MSCI ESG % Coverage	98.95%
Fund Lipper Global Classification	Equity Europe	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	116.64
Funds in Peer Group	1,087		

All data is from MSCI ESG Fund Ratings as of **07-Mar-2022**, based on holdings as of **30-Sep-2021**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% of the fund's gross weight must come from securities covered by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities. For newly launched funds, sustainability characteristics are typically available 6 months after launch.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of a fund's holdings that have MSCI ESG ratings data.

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.
