

## ETUDE RISK MANAGEMENT

### About us

Etude Risk Management is a bespoke regulatory risk management practice with a focus on building long-term relationships with our clients. We align ourselves with businesses who identify the need to manage regulatory risk and want to implement sound business practices in their organisation.

### Value proposition

Having gained experience as financial advisors we have identified a growing need for truly independent and comprehensive regulatory risk management services in South Africa. Our bouquet of services is tailored to each unique client in order that they may identify and manage the risks inherent in their business. This bespoke approach partnered with long-term relationships is what identifies us.

### Services offered

Etude provides regulatory risk management services to a wide variety of small to medium sized businesses across all pieces of legislation including FAIS, FIC, POPI, PAIA, NCR, CIPC and CIS. We offer:

- Regulatory Assistance (including all statutory returns, profile changes and regulator interactions)
- Compliance Monitoring (including all sampling and assessments)
- Independent Audits
- Awareness Training
