6. Notes

a. Electronic communications

1. Request for electronic communications capability and acceptance of risks

The investor requests the ability to send instructions for trading in the Fund(s) (subscriptions, switches, transfers and redemptions) and other instructions to Allan Gray (e.g. requests for reports, change of address notices) in the form of electronic communication (including via fax) and to have them acted upon instead of physically delivering original signed instructions. The investor authorises Allan Gray to rely on instructions contained in electronic communications on these terms. The investor understands that they may still elect, at any time, to physically deliver originals. The investor understands and accepts that using and relying on electronic communications may involve increased risk of fraud and of miscommunications, including those due to a telecommunications system or equipment failure, misdirected communications or illegibility of the instructions or documents.

2. Right of Allan Gray to not act on electronic communications and copies

The investor understands and agrees that Allan Gray may choose not to rely on electronic communications. If this is the case, Allan Gray agrees that it will try to contact the investor on the same day to advise the investor of its decision. The investor will not hold Allan Gray (and it will not be) responsible if it chooses not to act on electronic communications.

3. Allocation of risk

The investor agrees to bear the risks associated with using and relying on electronic communications or copies of documents except where Allan Gray is grossly negligent or wilfully defaults in undertaking its responsibilities. The investor agrees that, except where Allan Gray is grossly negligent or wilfully defaults, Allan Gray will not be responsible for any loss or liability the investor incurs due to an electronic communications transmission error or due to Allan Gray relying on an instruction sent by electronic communications which it believes in good faith to be genuine. If Allan Gray incurs a loss of any nature due to its acting or failing to act on electronic communications received from the investor or due to equipment failure or any circumstances beyond the control of Allan Gray, the investor will indemnify and keep indemnified Allan Gray from all such loss, except where Allan Gray is grossly negligent or wilfully defaults in undertaking its responsibilities.

4. Online account terms

In addition to the foregoing, with respect to the use of online services, the applicant agrees to abide by the terms and conditions of their Allan Gray Online account and the website terms of use in effect from time to time as posted on the website at www.allangray.com. In the event of any conflict between the terms of this form and the website terms of use then in effect, the website terms of use shall govern. The applicant acknowledges that the use of the services by them or their authorised users constitutes acceptance of the terms and conditions in effect at that time. Allan Gray will, as soon as possible, cancel access to the services if a request is sent to Allan Gray. In the event that online services are not available for any reason, the applicant and additional contacts that have access to online services will not be able to view account information.

5. Other legal terms

These electronic communications terms will be governed by South African law. Allan Gray may assign its rights and obligations to anyone who takes on its responsibilities in relation to the Fund(s).

b. Receipt of documents

- The investor acknowledges that they, and any additional contacts that they have authorised, may receive electronic information on their investment in, or correspondence regarding, the Fund.
- All correspondence from Allan Gray may be sent without encryption unless the investor requests otherwise.
- The investor acknowledges that electronic communications may be intercepted, copied, adapted or imitated by third parties, and may not be secure, reliable or timely.
- The investor understands and accepts that receiving and replying on electronic communications may involve increased risk of fraud and miscommunications, including those due to a telecommunications system or equipment failure, unauthorised interception, misdirected communications or infections with viruses or corruption in any other manner.
